MADE TO ORDER

ABOUT US

Who we are

We produce, install and design for the kitchen equipment stainless grade 304, both standard and made to order size. Moreover we also have the service of Gas system, Gas detector system, Duct system, Fresh air system and Walk-in Cold room. All come with the layout design to show the clear work idea for our customer.

Key Strengths

- Over 10 years of experience
- Diverse customer base → Hotels, Schools, Restaurants, Factories, etc.
- Full-service solutions → Design - Production - Installation - After sales service
- Professional maintenance team
- Licensed in Gas & Energy systems
- Beyond industrial kitchens

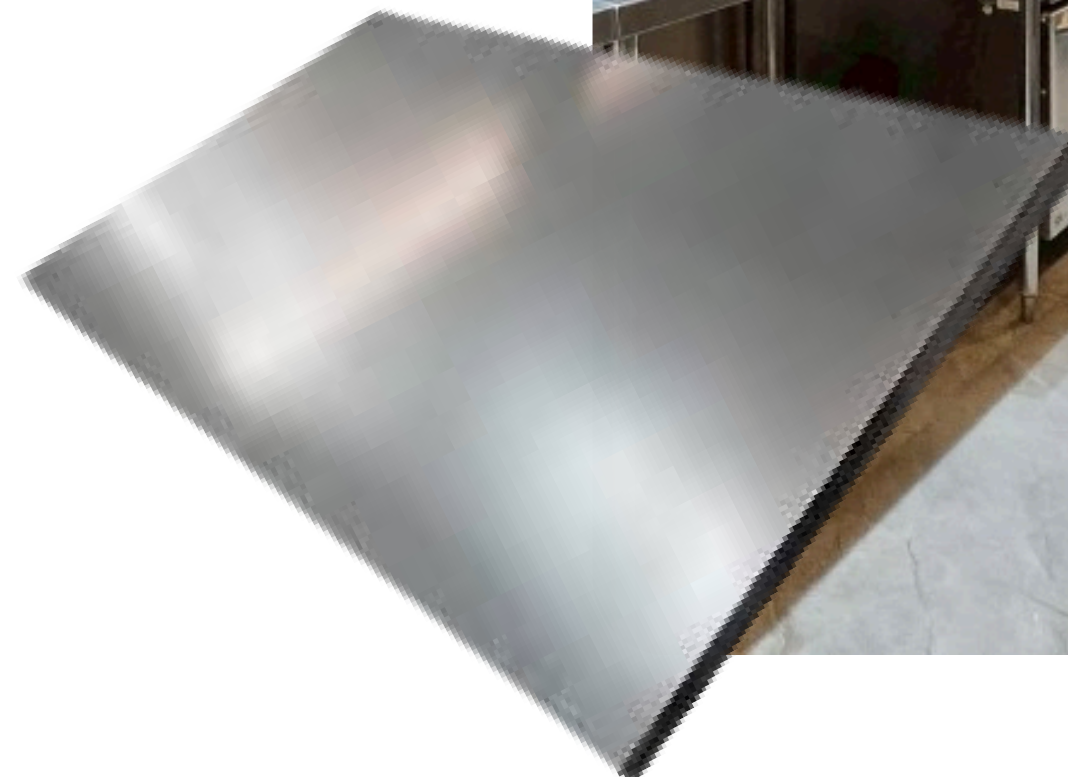

WHAT IS STAINLESS STEEL GRADE 304

Stainless steel grade 304 is the most widely used type because it is highly resistant to rust, strong, and versatile. It mainly contains about 18% chromium and 8% nickel, which makes it resistant to corrosion from air, water, and mild acids.

"Should customers prefer stainless steel grade 316L (Marine Grade), we are also able to provide and manufacture it."

PRODUCT & SERVICE

- **Industrial Kitchen Equipment** Made from Stainless Steel Grade 304 (1.0–1.2 mm thickness) Custom-made available / Marine Grade 316L
- **Buffet Line Equipment** Ideal for canteens, factories, schools, and hospitals
- **Residence & Bar Kitchen Equipment** -Luxury design with premium materials (Hinges, Handles, Laser Cut)
- **Duct, Fresh Air & Gas System** - Equipped with “Kruger” motors (international standard) Includes support and maintenance team
- **Cold Room (Chiller/Freezer)** - On-site measurement & design Using standard-grade compressors and equipment
- **The stainless fire pit with gas system** (manual or automatic)
- **The electro - polishing chemical cutlery** (stainless steel, brass)
- **Stainless Steel Works** Examples: Stainless Steel Linen Trolley, Stainless Steel Clothes Rack, Laundry Room Equipment
- **Kitchen Layout Design**- Designed with AutoCAD & SketchUp for clear visualization before production
